TOWN OF SULLIVAN'S ISLAND
RC-1 Popcorn Tree Removal Addendum

PROPERTY ADDRESS: _____

This addendum specifically pertains to the removal of invasive Popcorn Tree (*Triadica sebifera*, formerly *Sapium sebiferum*), which is issued under the same permit for the pruning and trimming of native Southern Waxmyrtle (*Morella cerifera*, formerly *Myrica cerifera*) and native Eastern Baccharis (*Baccharis halimifolia*). One RC-1 Trimming permit may be issued per season (November 1st to February 28th) for each site in accordance with Sec. 21-71. E. (3). Based on the language in the contractor's description of work, the trimming permit can be issued for the pruning of native Southern Waxmyrtle and Eastern Baccharis and/or removal of invasive Popcorn Tree(s).

Has the property owner authorized the invasive removal tree work? Or have they chosen to retain Popcorn Trees?

- ☐ **Yes,** the property owner authorizes the removal of the invasive Popcorn Tree in the RC District located seaward of the property listed above.
- ☐ **No,** the property owner has chosen to decline invasive popcorn tree removal.

If yes, then the following requirements must be submitted by the licensed contractor completing the work in the RC-1 Trimming application.

1. A to-scale representation of the site, including the corresponding property owner's parcel boundaries and lines as they extend toward the ocean, and, where property is adjacent to Beach Access, including the adjacent half of the extension of the easement boundaries;
2. Create a table listing every Popcorn Tree 2"+ in DBH and every cluster of smaller Popcorn Trees, providing the following information:
   A. unique identification number corresponding to a photograph of each Popcorn Tree and at the centroid of any clusters of saplings identified for removal
   B. the diameter at breast height (DBH) of each Popcorn Tree slated for removal
   C. the GPS coordinates of each Popcorn Tree and cluster of saplings in decimal degrees to at least 6 decimal places; and
3. Scheduled date for removal activities.

The issuance of this permit is contingent on passing pre-inspection by the Town Naturalist to confirm accurate identification of all popcorn trees. For more information on popcorn tree field identification techniques and a tutorial on using phone-based applications for data collection and submission of permit requirements, contact the Town Naturalist, Rebecca Fanning at (843) 996-8450 or rfanning@sullivansisland.sc.gov.

Bonds will be held until all work is complete, following a final inspection.

I understand, agree to, and confirm that, I will perform all work in a manner consistent with the provisions and restrictions of the Ordinance and guidelines set forth by the Town, agreeing that no heavy machinery shall be used and that all vegetative debris from the popcorn trees shall be removed from the site and disposed of properly.
