

**SULLIVAN'S ISLAND DESIGN REVIEW BOARD
SUBMITTAL APPLICATION (PAGE 1)**

PROPERTY ADDRESS: 1914 Central Ave PARCEL ID (TMS #): 529-05-00-059

SUBMITTAL DATE: 06.20.25 MEETING DATE: 07.16.25

REQUEST: CONCEPTUAL REVIEW: x PRELIMINARY APPROVAL: FINAL APPROVAL:

DESCRIPTION OF SCOPE OF WORK: Restoration of historic cottage to the original footprint to be used as an accessory dwelling unit under the special exception. New construction of a primary residence.

 Submittal **outside** of the Historic District, not classified historic, and requests DRB relief.

 Submittal is **outside** of the Historic District and designated as a historic resource.

 DRB relief requests No DRB requests

x Submittal is **within** the Historic District and is:

 x designated as Historic Resource x DRB relief requests No DRB requests

 Not designated as a Historic Resource: DRB relief requests No DRB requests

DRB SUBMITTAL CHECKLIST: The following items must be included in the submittal for placement on the DRB agenda.

x Application fee (Historic properties: \$116.00; New constructions: \$1,280; Addition/renovations: \$426.60)

x Completes and signed submittal application (Page 1). (All submissions)

x Zoning Standards Compliance Worksheet (Page 2). (All submissions with relief requests)

x Neighborhood Compatibility Worksheet (Page 3). (All submissions with relief requests)

x Historic Design Review Worksheet (Page 4). (All submissions involving a designated Historic Resource)

x Online submittal through BSA; Town of Sullivan's Island online submittal portal.

x Two (2) sets of drawings, no bigger than 11X17"; Drawings to include:

x A current as-built survey, Certified by a S.C. Registered Land Surveyor [1/16" = 1'-0" OR 1" = 20'-0"

Required for all new construction and for work which expands or is outside of an existing building footprint; illustrating the following:

- All applicable Flood Zone information
- Setbacks, property lines and easements
- Spot elevations required to comply with § 21-24
- OCRM Critical Lines, or Baseline and Setback if applicable
- Existing Structures, if applicable

 Site Plan [1/16" = 1'-0" OR 1" = 20'-0" scale], illustrating the following:

- Existing structures, if applicable
- Proposed new structures
- All applicable survey information
- Narrative for Scope of Work (all Historic projects)

 Floor Plans [1/8" = 1'-0" scale], with the following requirements:

- Exterior dimensions
- Graphically depict the outlines of heated space, covered porches and open decks.
- In the case of renovations and/or additions, the outlines of existing and new construction must also be shown.

 Exterior Elevations [1/8" = 1'-0" scale], with the following requirements:

- All exterior materials such as wood, stucco, roofing and / or masonry shall be graphically represented for intent.
- Must be rendered with shadows depicting roof and / or deck overhangs, changes in wall plane, or massing.
- Roof ridge heights to natural grade. Finished Floor Elevation (FFE), Lowest Structural Member (LSM), Base Flood Elevation (BFE) to finish grade.
- Detailed descriptions of treatment of all historic materials. (all Historic projects)

 Conditional/Optional:

- 3-D perspective sketches and / or models, as well as streetscape renderings that include adjacent properties are always encouraged and are **required for submissions with requests for relief, additional coverage, or additional square footage.**
- Any relevant photographs or documentation that might be descriptive (of adjacent properties).

NEIGHBORHOOD COMPATIBILITY WORKSHEET (PAGE 3)

Have you reached out to the neighbors to get their feedback on the proposed plans? Yes: x No:

In accordance with the Sullivan's Island Zoning Ordinance, Section 21-111, the DRB shall only grant modifications of the Zoning Ordinance standards if the design is compatible with the surrounding neighborhood. **See the DRB application [submittal guidance document](#) for additional information for filling in this form.** Lot area: 21,643 sf Highland lot area: sf (if applicable)

Principal Building Square Footage (21-27): Existing SF: 1479 Standard SF: 4064 Proposed SF: 4328

We are requesting 264 SF of relief which allows the restoration of the cottage footprint to return to the original footprint of 1183 sf, and the primary massing to be located behind the cottage- abiding by all setbacks, and preserving the most mature trees on the lot. The location of the primary structure, along with the mostly single story massing is intended to mitigate the height disparity between the structures.

Principal Building Coverage (21-25): Existing SF: 1479 Standard SF: 3246 Proposed SF: 3851

Similar to the statement above, the request for relief allows for a reduction in overall height as well as a reduced impact on the existing trees.

Front/Side/2nd-Story Building Setbacks (21-22): Standard, combined Proposed, combined , min
Compliant with zoning standards

Second Story Side Façade Setback (21-22): Requested relief:
Compliant with zoning standards

Principal Building Side Façade Setback (21-22): Requested Relief:
Compliant with zoning standards

Other (circle any that apply):

Third Story, Principal Building Front Façade, Building Orientation, Building Foundation Height, Foundation Enclosure, or Accessory Structure: Compliant with zoning standards

Accessory structure- is a restoration of existing conditions

REQUEST FOR HISTORIC DESIGN REVIEW (PAGE 4)

Do you propose any exterior changes to the historic structure? Yes: ☒ No: ☐
If you answered "yes", please provide a detailed explanation and sequence of the work below:

Section 21-97. C Historic Preservation Standards:

Submit in writing and be prepared to describe how your project is consistent with the following ten preservation standards, and the most recent version of the Secretary of Interior's Guidelines for the Treatment of Historic Properties. ****On your elevation drawings show all existing conditions and proposed changes. Detail existing materials and highlight all new and preserved architectural and structural elements.**

<https://www.nps.gov/tps/standards/treatment-guidelines-2017.pdf>

- (a) Using a property as it was used historically or giving a new use that requires minimal change to its distinctive materials, features, spaces, and spatial relationships;
- (b) Retaining and preserving the historic character of a property; avoidance of the removal of distinctive materials or alteration of features, spaces, and spatial relationships that characterize a property;
- (c) Avoiding changes that create a false sense of historical development, such as adding conjectural features or elements from other buildings;
- (d) Retaining and preserving changes to a property that have acquired historic significance in their own right;
- (e) Preserving distinctive materials, features, finishes, and construction techniques or examples of craftsmanship that characterize a property;
- (f) Repairing rather than replacing deteriorated historic features; or where the severity of deterioration requires replacement of a distinctive feature, the new feature will match the old in design, color, texture, and, where possible, materials;
- (g) Utilizing the gentlest means of chemical or physical treatments;
- (h) Protecting and preserving the archeological resources in place, and if disturbing, mitigation measures will be undertaken;
- (i) Not destroying historic materials, features, and spatial relationships that characterize the property; differentiating the new work from the old and making it compatible with the historic materials, features, size, scale, and proportion, and massing to protect the integrity of the property and its environment; and,
- (j) Undertaking new construction in such a manner that, if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

The historic cottage will be returned to it's original footprint as determined by, historic preservationist, Christina Rae Butler and early sandborne maps. The new front porch will run the full width of the original gable with exposed rafter tails, metal roof, and a simple rail with minimal ornament. We are adding painted square wood box columns, and wooden steps as would have been present at the time of original construction.

Siding that is removed from the later additions, will be salvaged for re-use in patching areas as needed.

The new front door, (2) additional windows and rear slider will match the lite pattern of the existing windows.

New operable wood shutters will be added to protect the existing non-impact windows while providing additional architectural detail.

As determined in the report, the foundation is original and informed the decision not to move or raise the cottage. It will remain nestled in the existing trees, providing an historic foreground for the new construction of the primary massing.

(Please use extra sheet as needed)
