Tree Assessment for 3109 Ion Ave., Sullivan's Island, SC

At your request, we conducted a tree assessment of a 16" dbh Slash Pine tree located on the front left section of the above-mentioned property.

Our findings are as follows:

This tree has normal branching characteristics with no signs of root plate injury or structural deficiency. This tree is listed in FAIR condition.

Please contact me at 843-224-1629 if you have any questions or concerns.

Respectfully,

Gerald Benoit ISA, PA

A large, mature pine tree stands in a wooded area. The trunk is thick and covered in rough, grey bark. Two orange measuring tapes are wrapped around the trunk to indicate its diameter. The tree's branches are spread out, with some showing green needles and others showing brown, dried pine needles. The ground is covered with a mix of green grass and brown pine needles. In the background, there are other trees and a fence.

16" dbh Pine
