

Drinking Water Sources

Bushy Park Reservoir is our Primary Water Source

Source Water Protection

To raise awareness about preventing water pollution, SC DHEC identifies potential sources of contamination for each drinking water source in the state: www.scdhec.gov/environment/your-water-coast/source-water-protection.

You Can Help Protect the Water

- 💧 **Pick up the poop!** Pet waste adds bacteria and excess nutrients, which contribute to algae growth that chokes out plants and wildlife.
- 💧 **Don't over-fertilize your lawn.** It washes into storm drains, streams, rivers, and oceans.
- 💧 **No dumping in storm drains.** They empty directly into a waterway.
- 💧 **Proper disposal** of oils, paints, and chemicals.
